MAXLINER®

PREMIER DISTRIBUTOR FOR DANCUTTER

sales@maxliner.co.uk | www.maxliner.co.uk

DC Super Flex

DANCUTTER'S EXTREMELY FLEXIBLE CUTTER

SIZE RANGE: 3" – 6"

POWERFUL AND FLEXIBLE
Extremely flexible in 45° and 90° bends. Effectively cuts, grinds, and mills in diverse materials.

ADVANCED CONTROL UNIT
Equipped with two joysticks, the control unit provides precise control over the motor rotation and cutter arm movements, allowing you to raise, lower, expand, and contract the cutter with ease.

360° CONTINUOUS ROTATION
Enjoy unrestricted operation with a continuous 360° continuous rotation feature.

HIGH MANEUVERABILITY
Automatic feeder and built-in slip ring for seamless back-and-forth movement.

SUPPLY HOSE
164 ft. hose for tailored operational flexibility.

ENHANCED FUNCTIONALITY
The cutter is equipped with a spray nozzle for camera cleaning with air or fluid.

EVERYTHING YOU NEED TO SUCCEED IN THE FIELD

CUTTING HEADS

Advanced milling and cutting heads are designed for a range of materials including PVC, cement, concrete, cast iron, and steel. We supply. Diamond cutting heads and carbide cutting heads available.

GRABBER

The Dancutter Grabber is a great no-dig tool for removing obstacles inside a pipe. The Grabber is air-driven and easy to mount on the DC SUPER FLEX instead of the air grinder. Grabbing diameter: 2.7 in., 360° continuous rotation, job site interchangeable.

OPTIONAL AIRMOTOR GRINDERS

DC MINI BIKE

COMPACT, VERSATILE, AND POWERFUL CUTTER

Size range: 2" – 3"

The DC MINI BIKE is your go-to solution for precise and efficient cutting, grinding, and milling across a variety of materials including PVC, liner, concrete, cast iron, and steel. The DC MINI BIKE, Dancutter's most compact cutter, is specially designed to navigate through narrow pipes (2") and confined spaces. Its small size belies its robust performance, making it an ideal choice for challenging environments.
